Top 20 Keyboard Shortcuts

ON1 Photo RAW 2025

Speed up your workflow

Efficient editing is critical to enhancing your productivity, especially when working with extensive photo collections. ON1 Photo RAW 2025 provides a comprehensive set of keyboard shortcuts that can significantly reduce the time spent on routine tasks. This eBook presents the top 20 keyboard shortcuts to streamline your workflow, enabling you to spend more time focusing on your creativity.
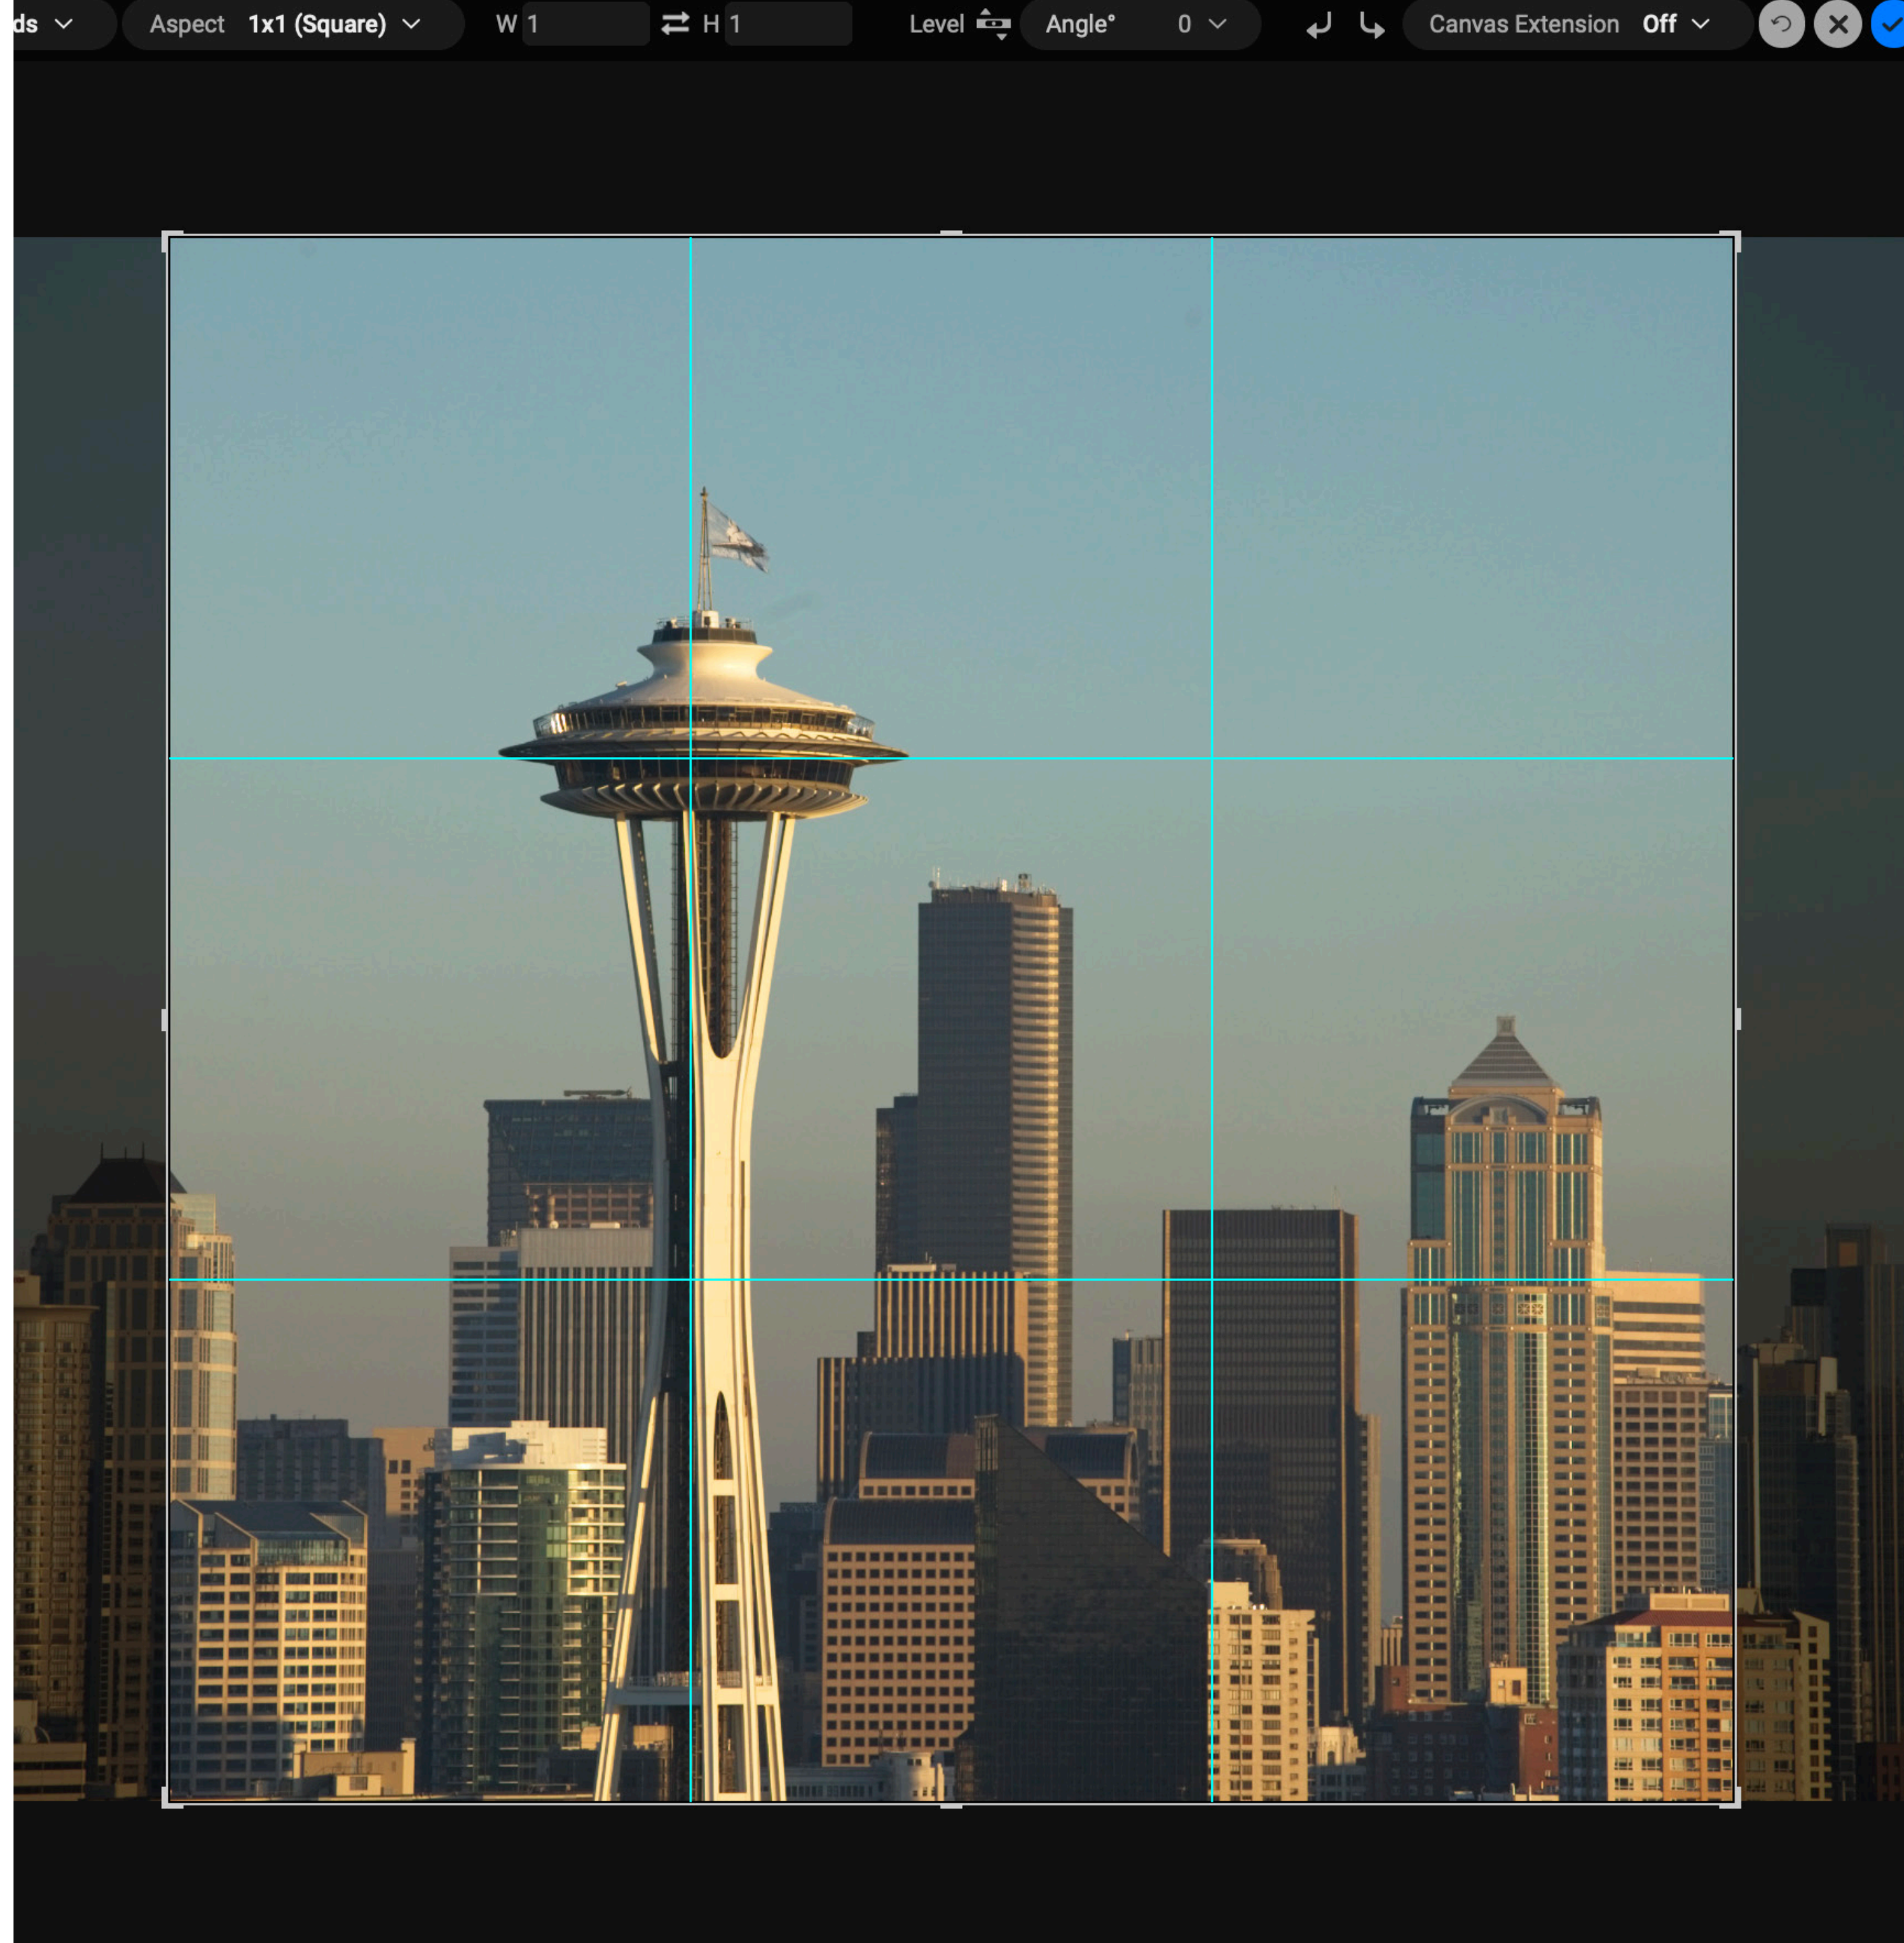

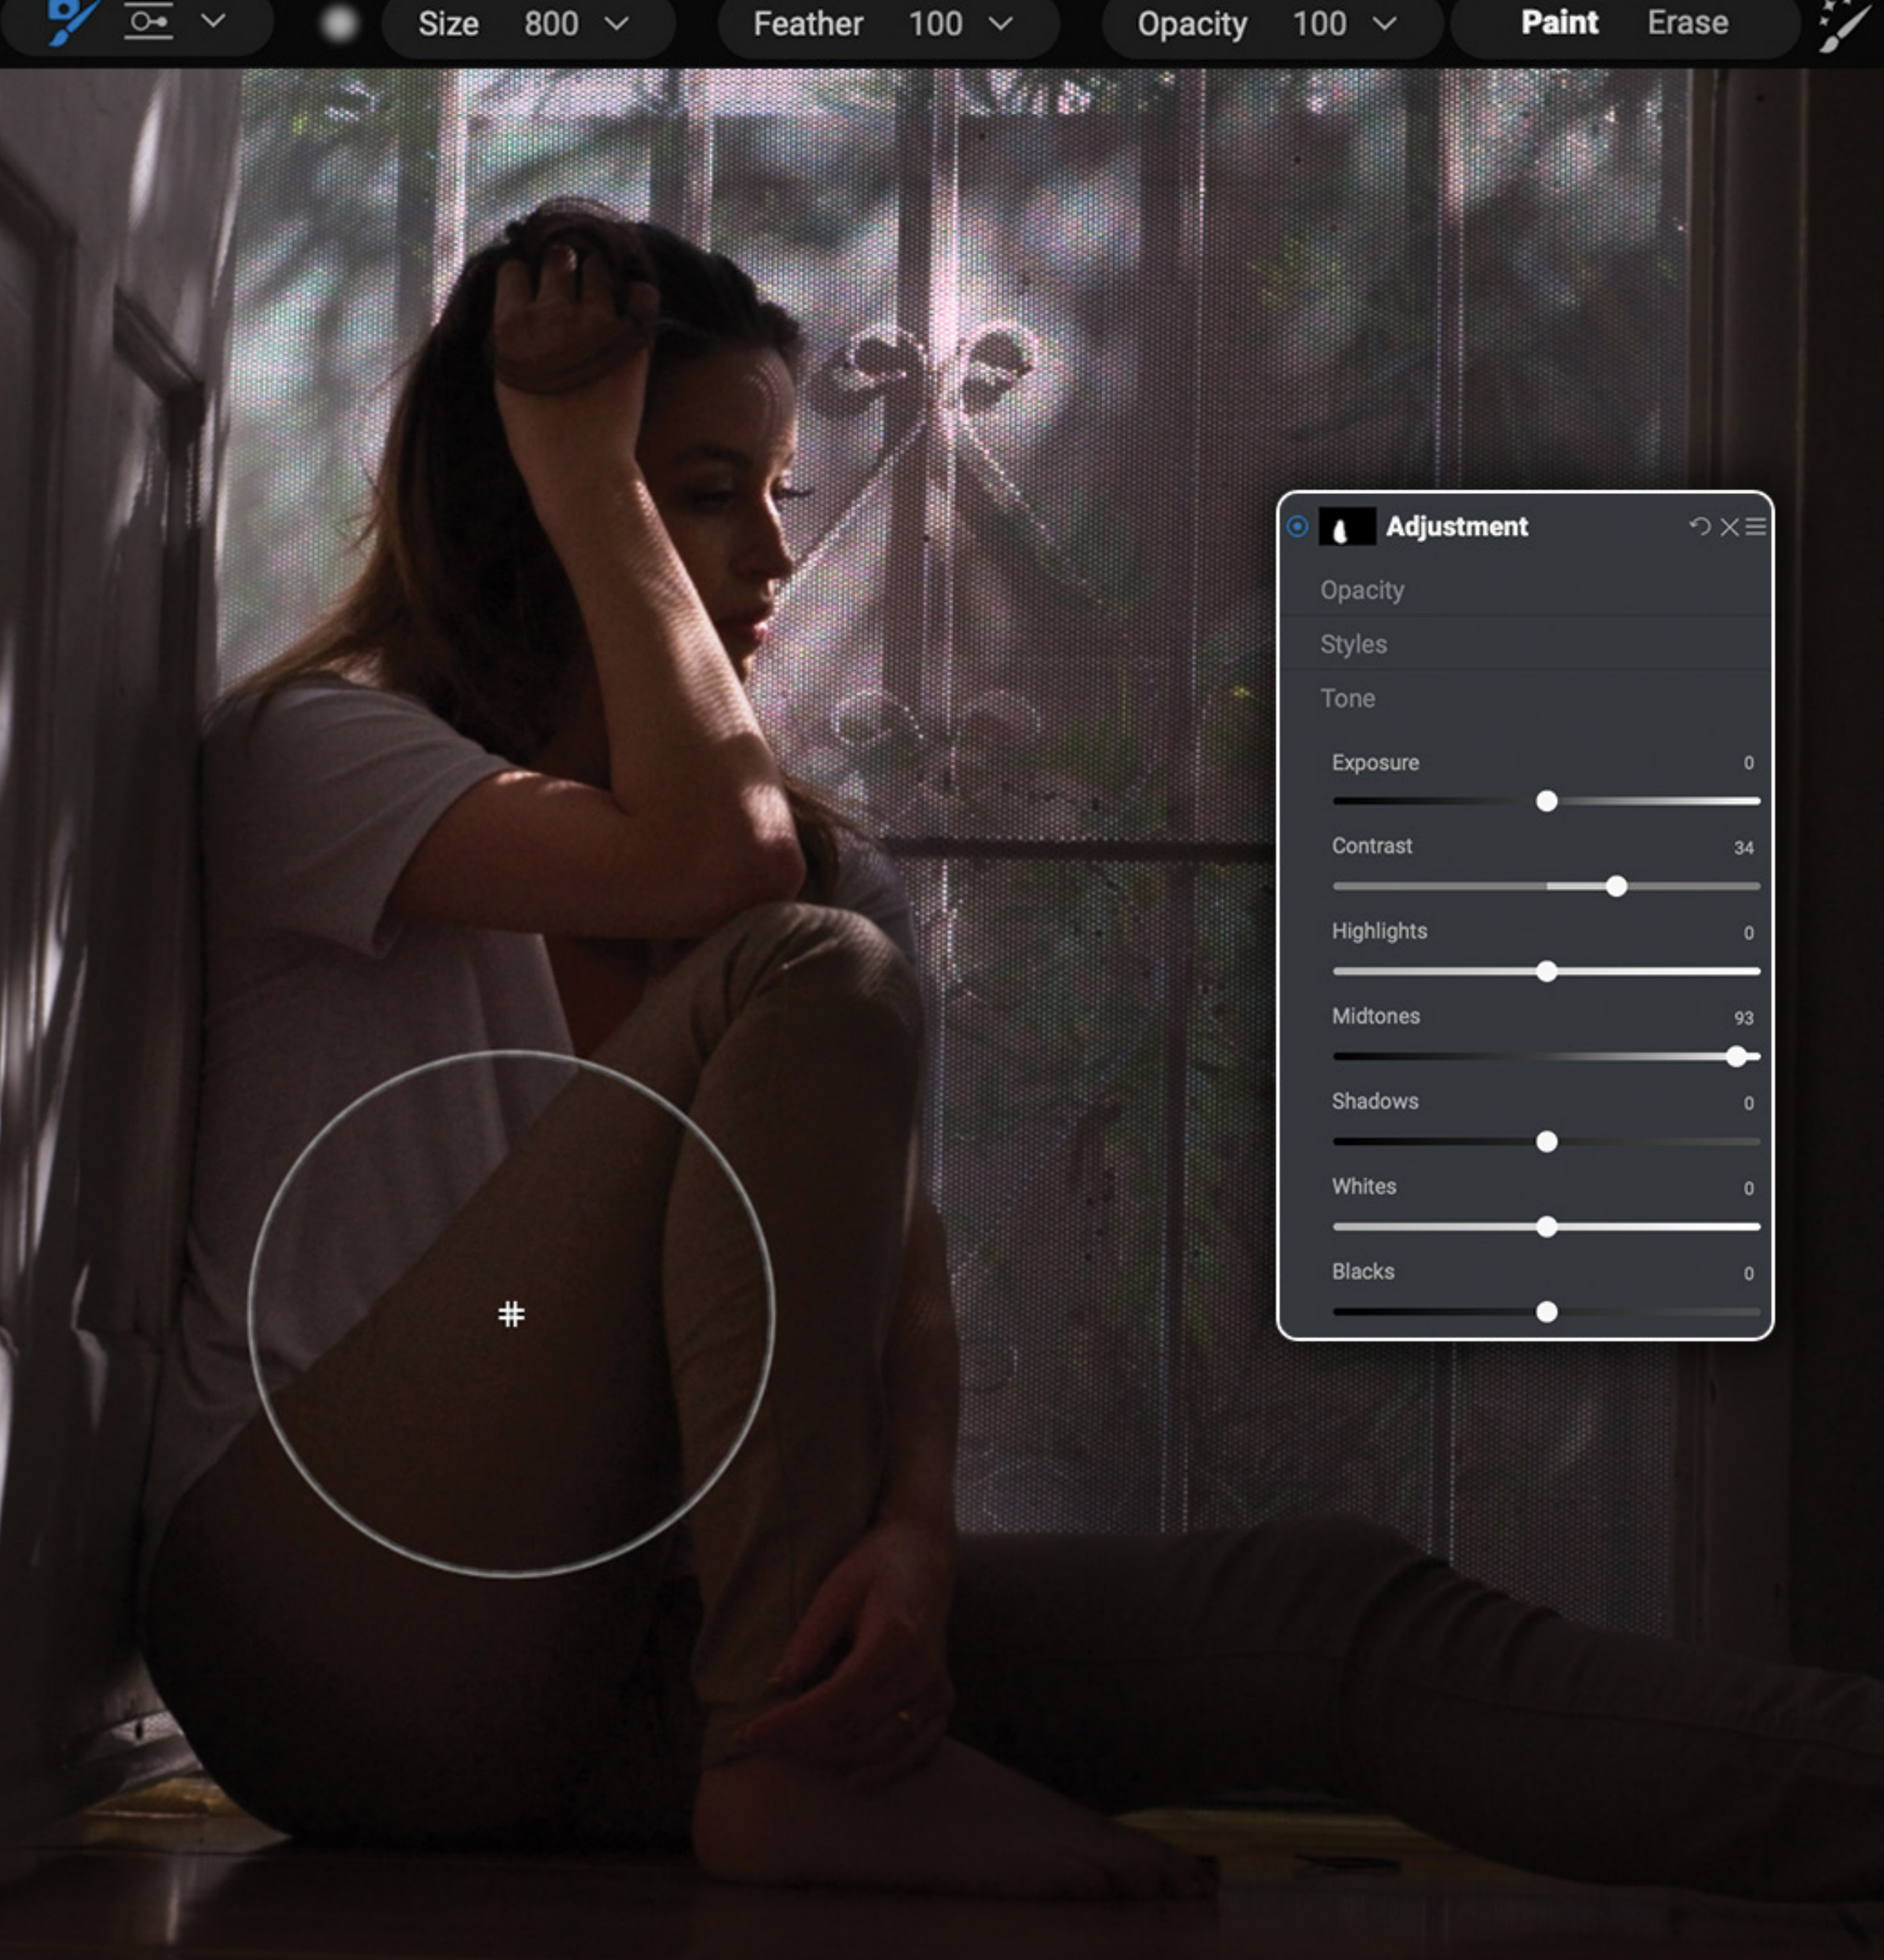

1. Crop Tool (C)

Use: Activate the Crop Tool to resize or reframe images instantly. Workflow Boost: Quickly crop images without navigating menus.

2. Masking Brush (B)

Use: Quickly access the Masking Brush to brush in adjustments or filters.
Workflow Boost: Make targeted adjustments faster without switching tools.

3. Spot Healing Brush (Q)

Use: Instantly open the Spot Healing Brush to remove imperfections.
Workflow Boost: Clean up portraits and landscapes in seconds.
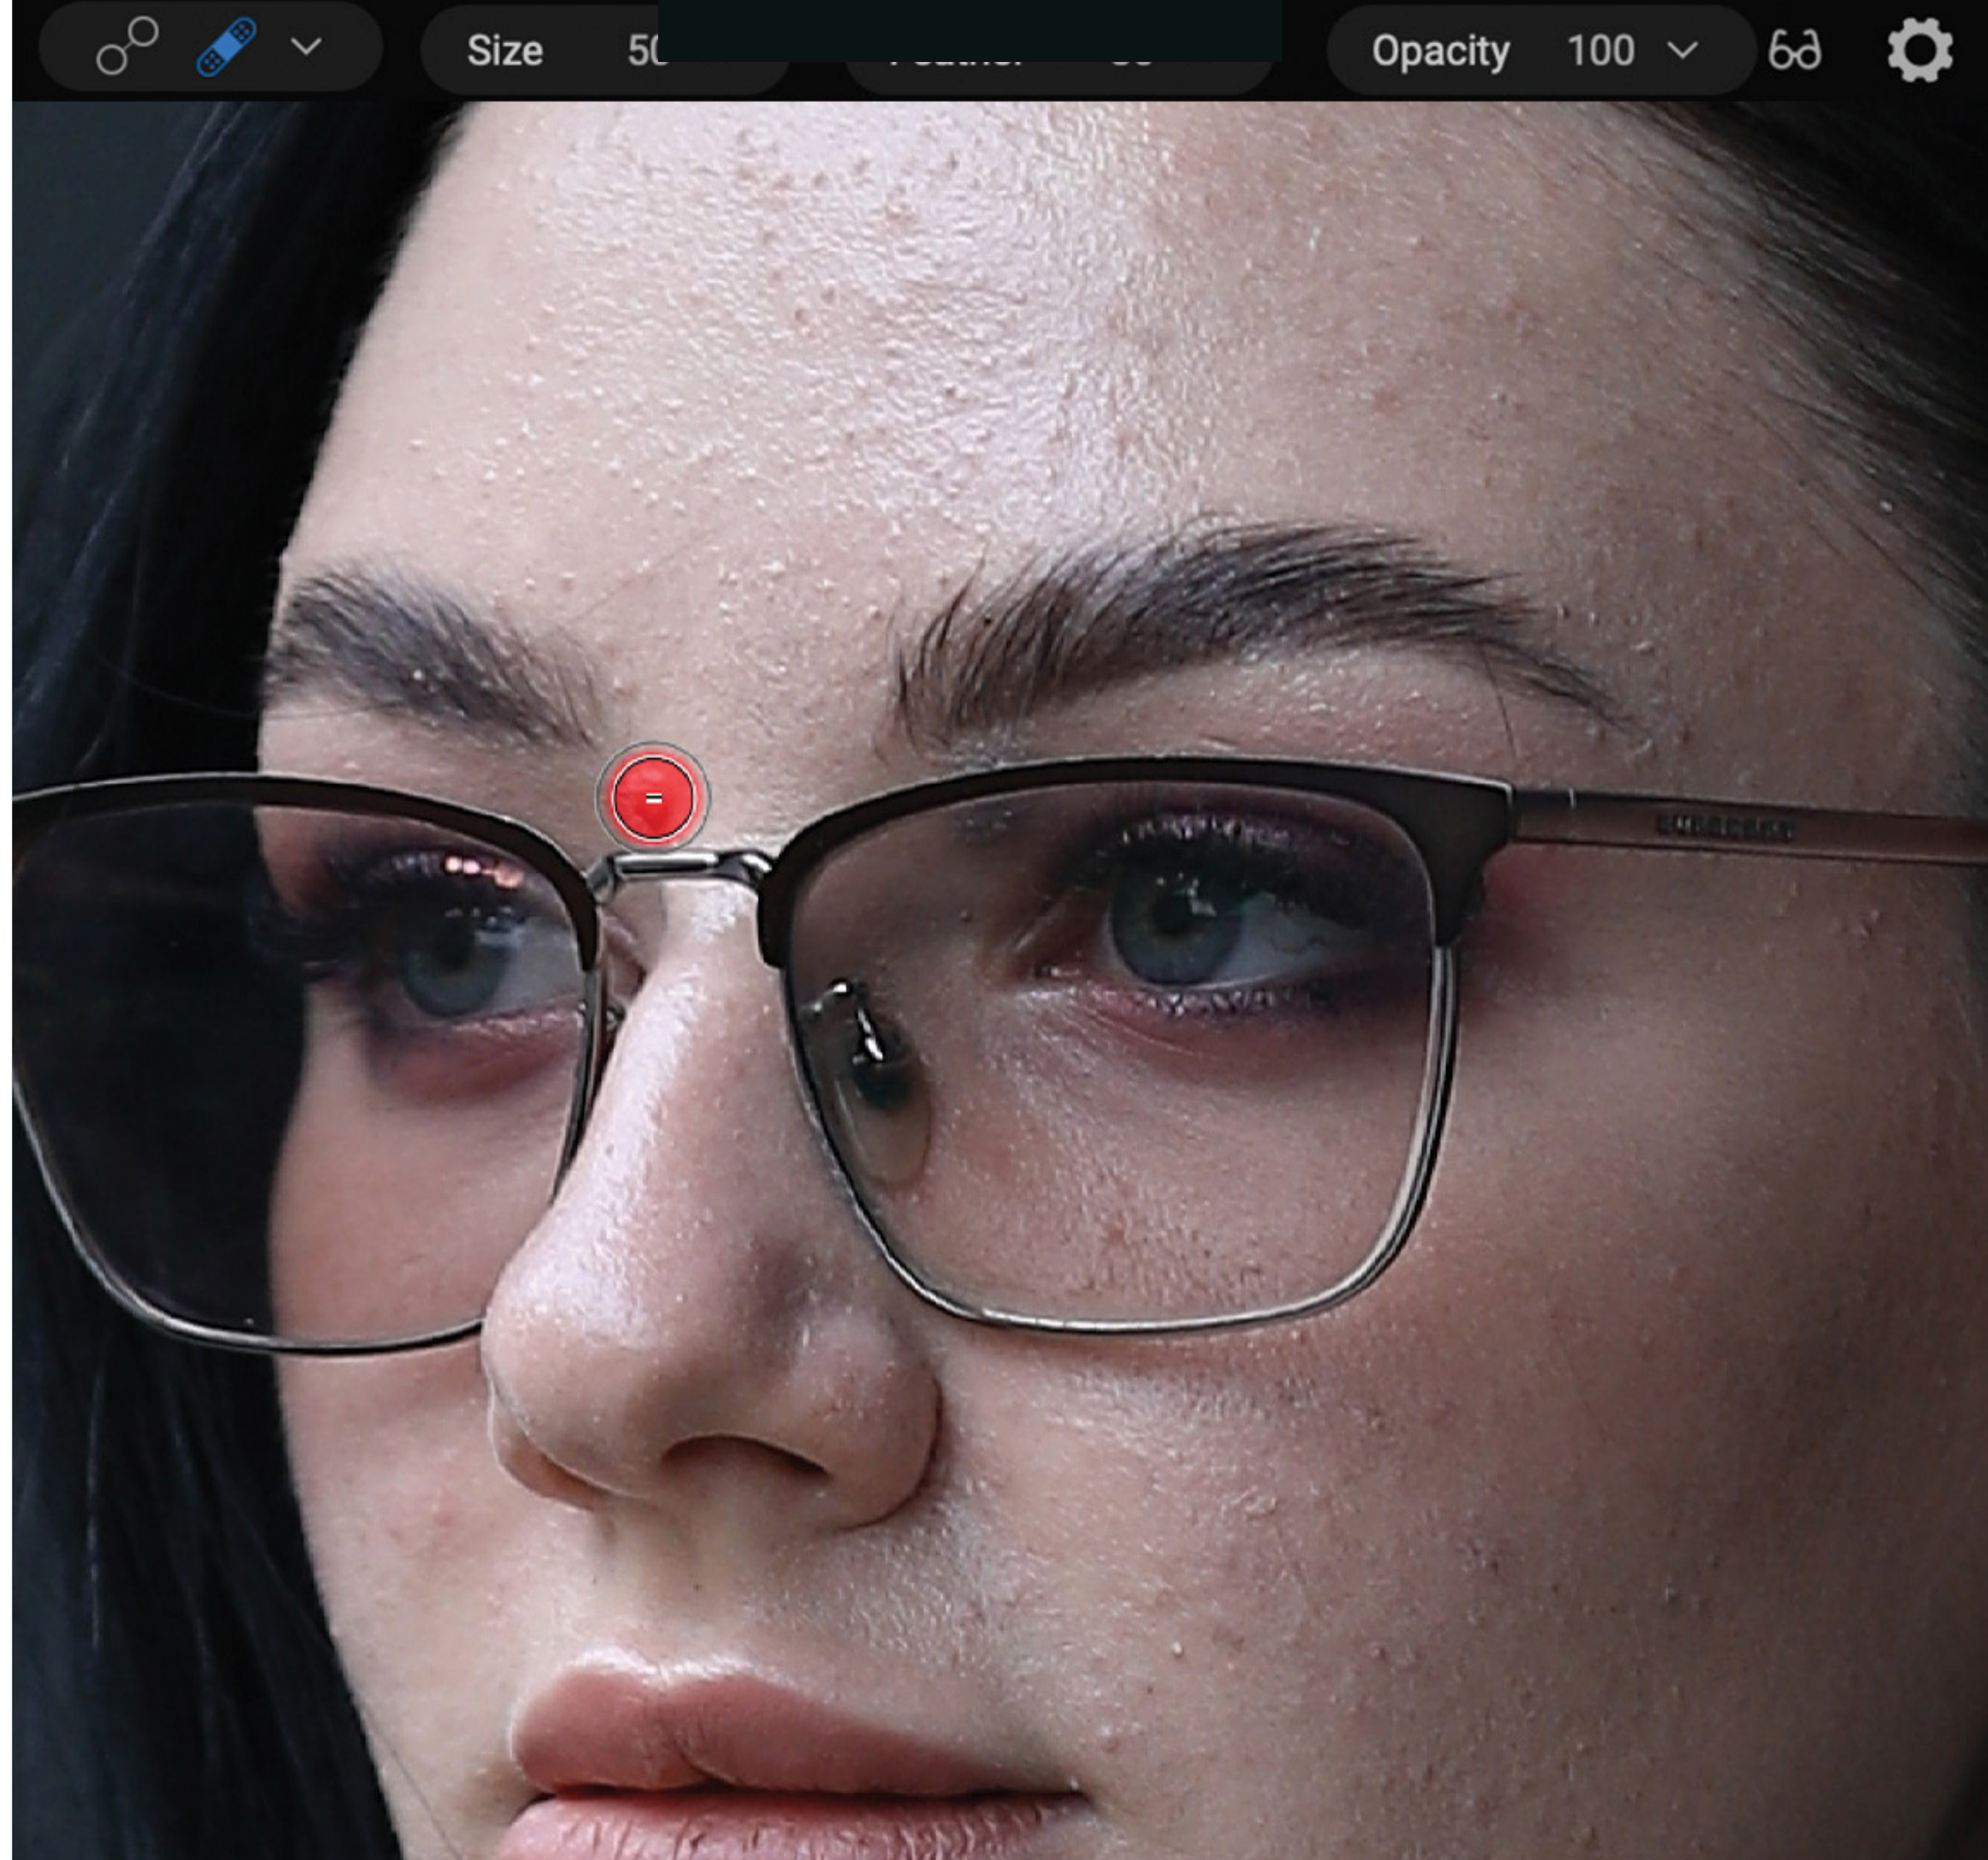

4. Perfect Eraser (Shift + Q)

Use: Quickly erase unwanted elements using the Perfect Eraser. Workflow Boost: Eliminates distractions with minimal effort, ideal for complex scenes.

5. Retouch Brush (R)

Use: Retouch skin or objects with precision.
Workflow Boost: Improve portrait shots in less time, especially for high-volume workflows.

6. Clone Stamp Tool (Shift + S)

Use: Duplicate parts of the image using the Clone Stamp.
Workflow Boost: Speeds up the cloning process when working on repetitive tasks like removing objects.
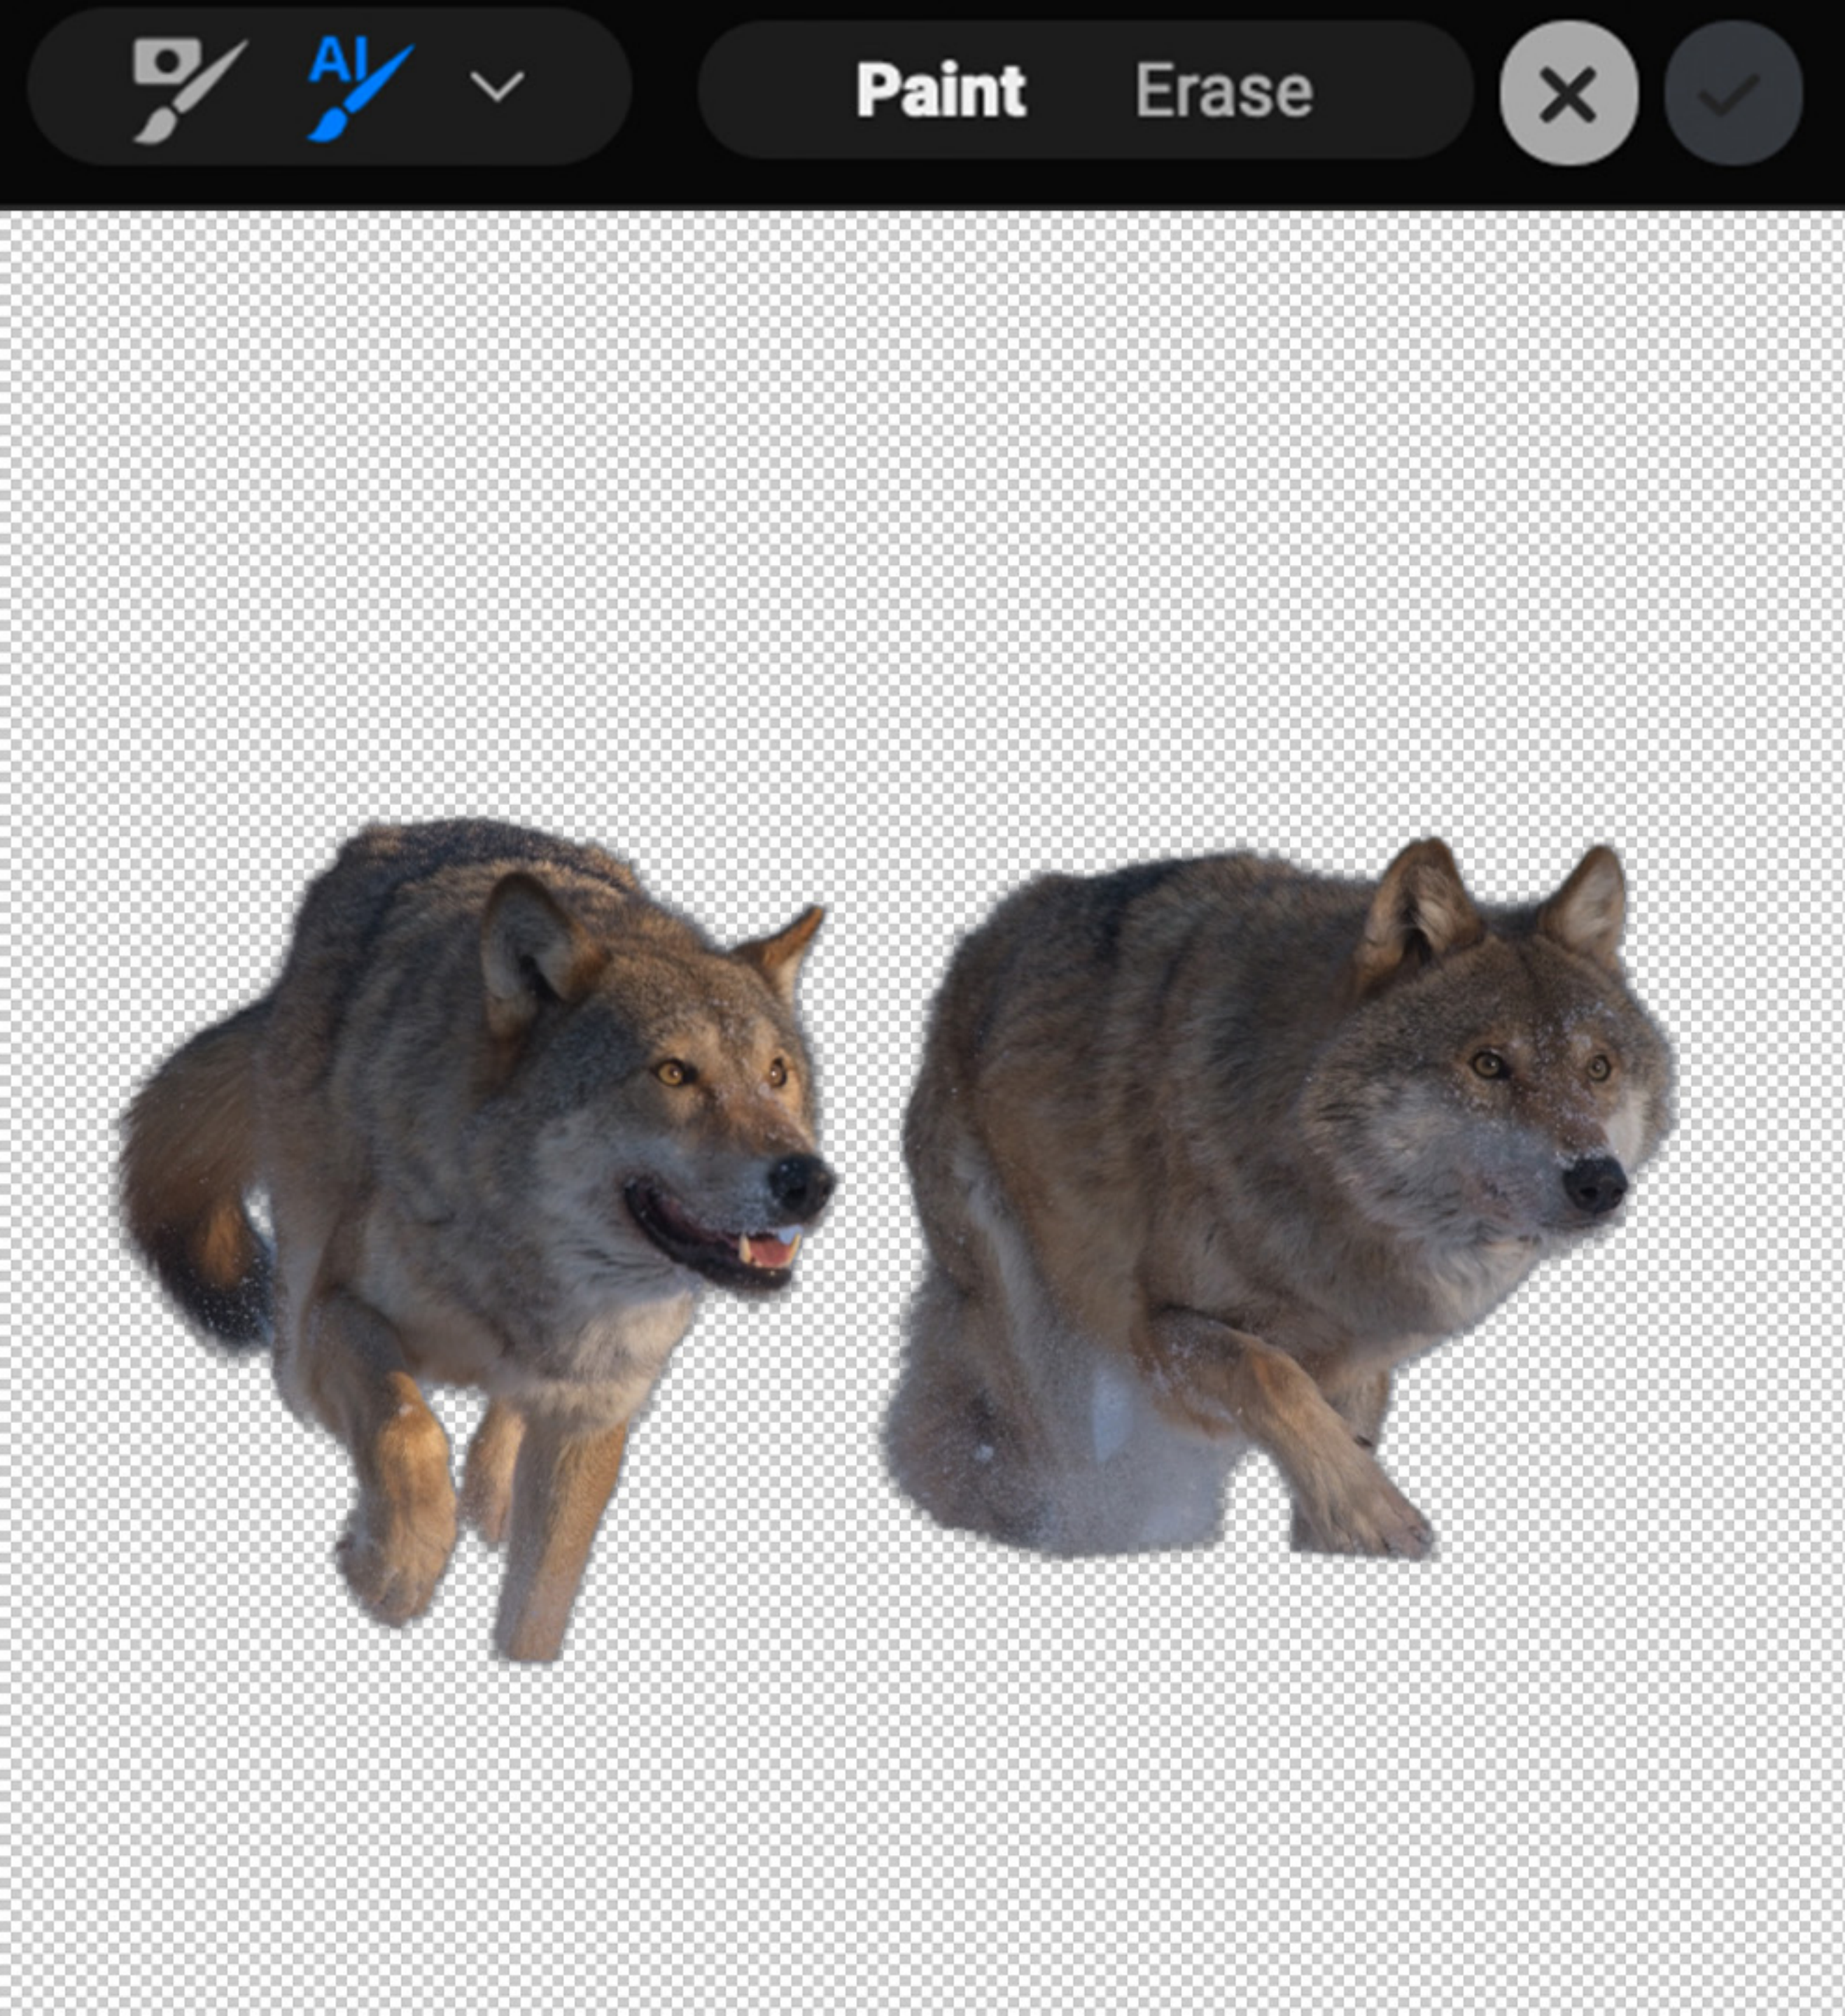

7. Super Select AI (K)

Use: Fast access to AI-powered selection tools for complex areas. Workflow Boost: Automate precise selections in seconds, saving significant time in intricate edits.

8. AI Quick Mask (W)
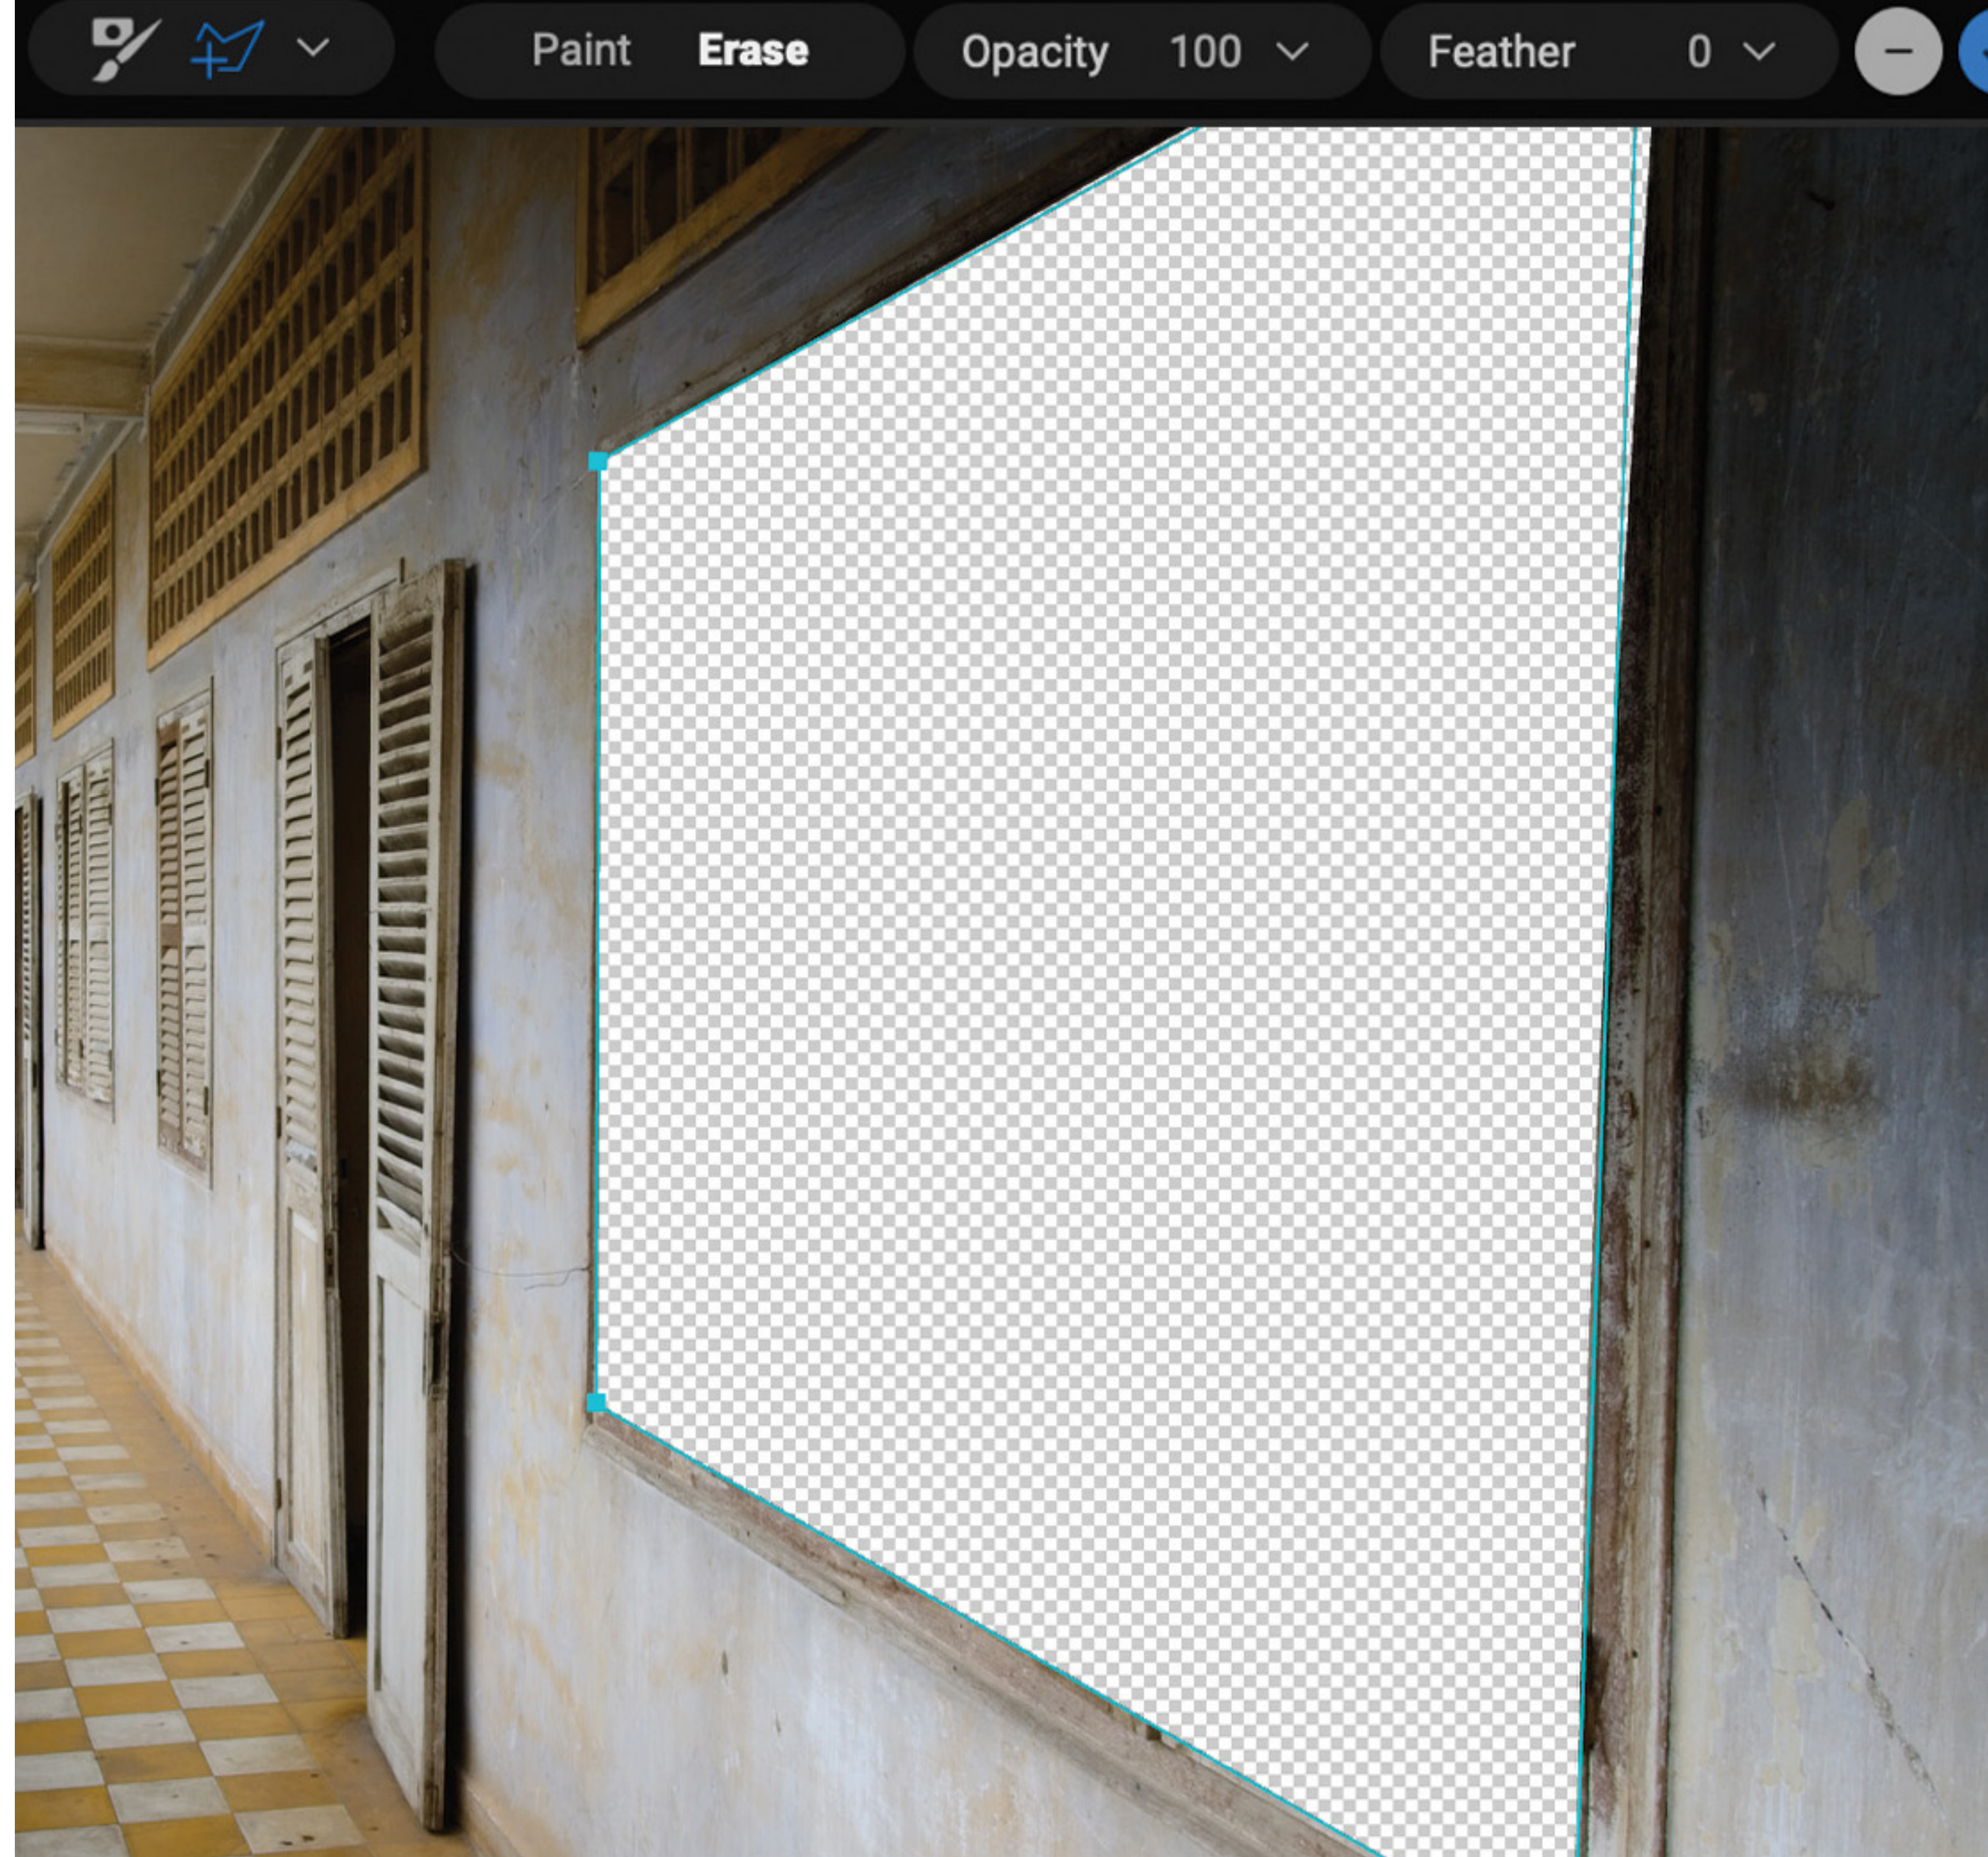

Use: Automatically generate masks using AI.
Workflow Boost: Perfect for fast masking without detailed manual adjustments.

9. Line Mask (Shift + P)

Use: Apply a straight-line mask for architectural or horizon adjustments.
Workflow Boost: Ideal for landscapes and symmetrical compositions.

10.Undo
(Cmd + Z / Ctrl + Z)

Use: Quickly undo your last action.
Workflow Boost: Correct mistakes
without slowing down the
workflow.

11. Redo (Shift + Ctrl + Z / Shift + Cmd + Z)

Use: Redo the previously undone action.
Workflow Boost: Streamline the editing process by toggling changes quickly.

12. Invert Mask (Ctrl + I / Cmd + I)

Use: Invert the current mask with one click.
Workflow Boost: Instantly change masked areas for faster adjustments.

13. Toggle Perfect Brush (Ctrl + R / Cmd + R)

Use: Toggle the Perfect Brush to refine edges.
Workflow Boost: Save time by switching between different brush types for cleaner masking.

# 14. Draw Straight Line (Shift + Click)

Use: Create straight lines for precise masking or drawing. Workflow Boost: Perfect for architectural edits or linear elements.
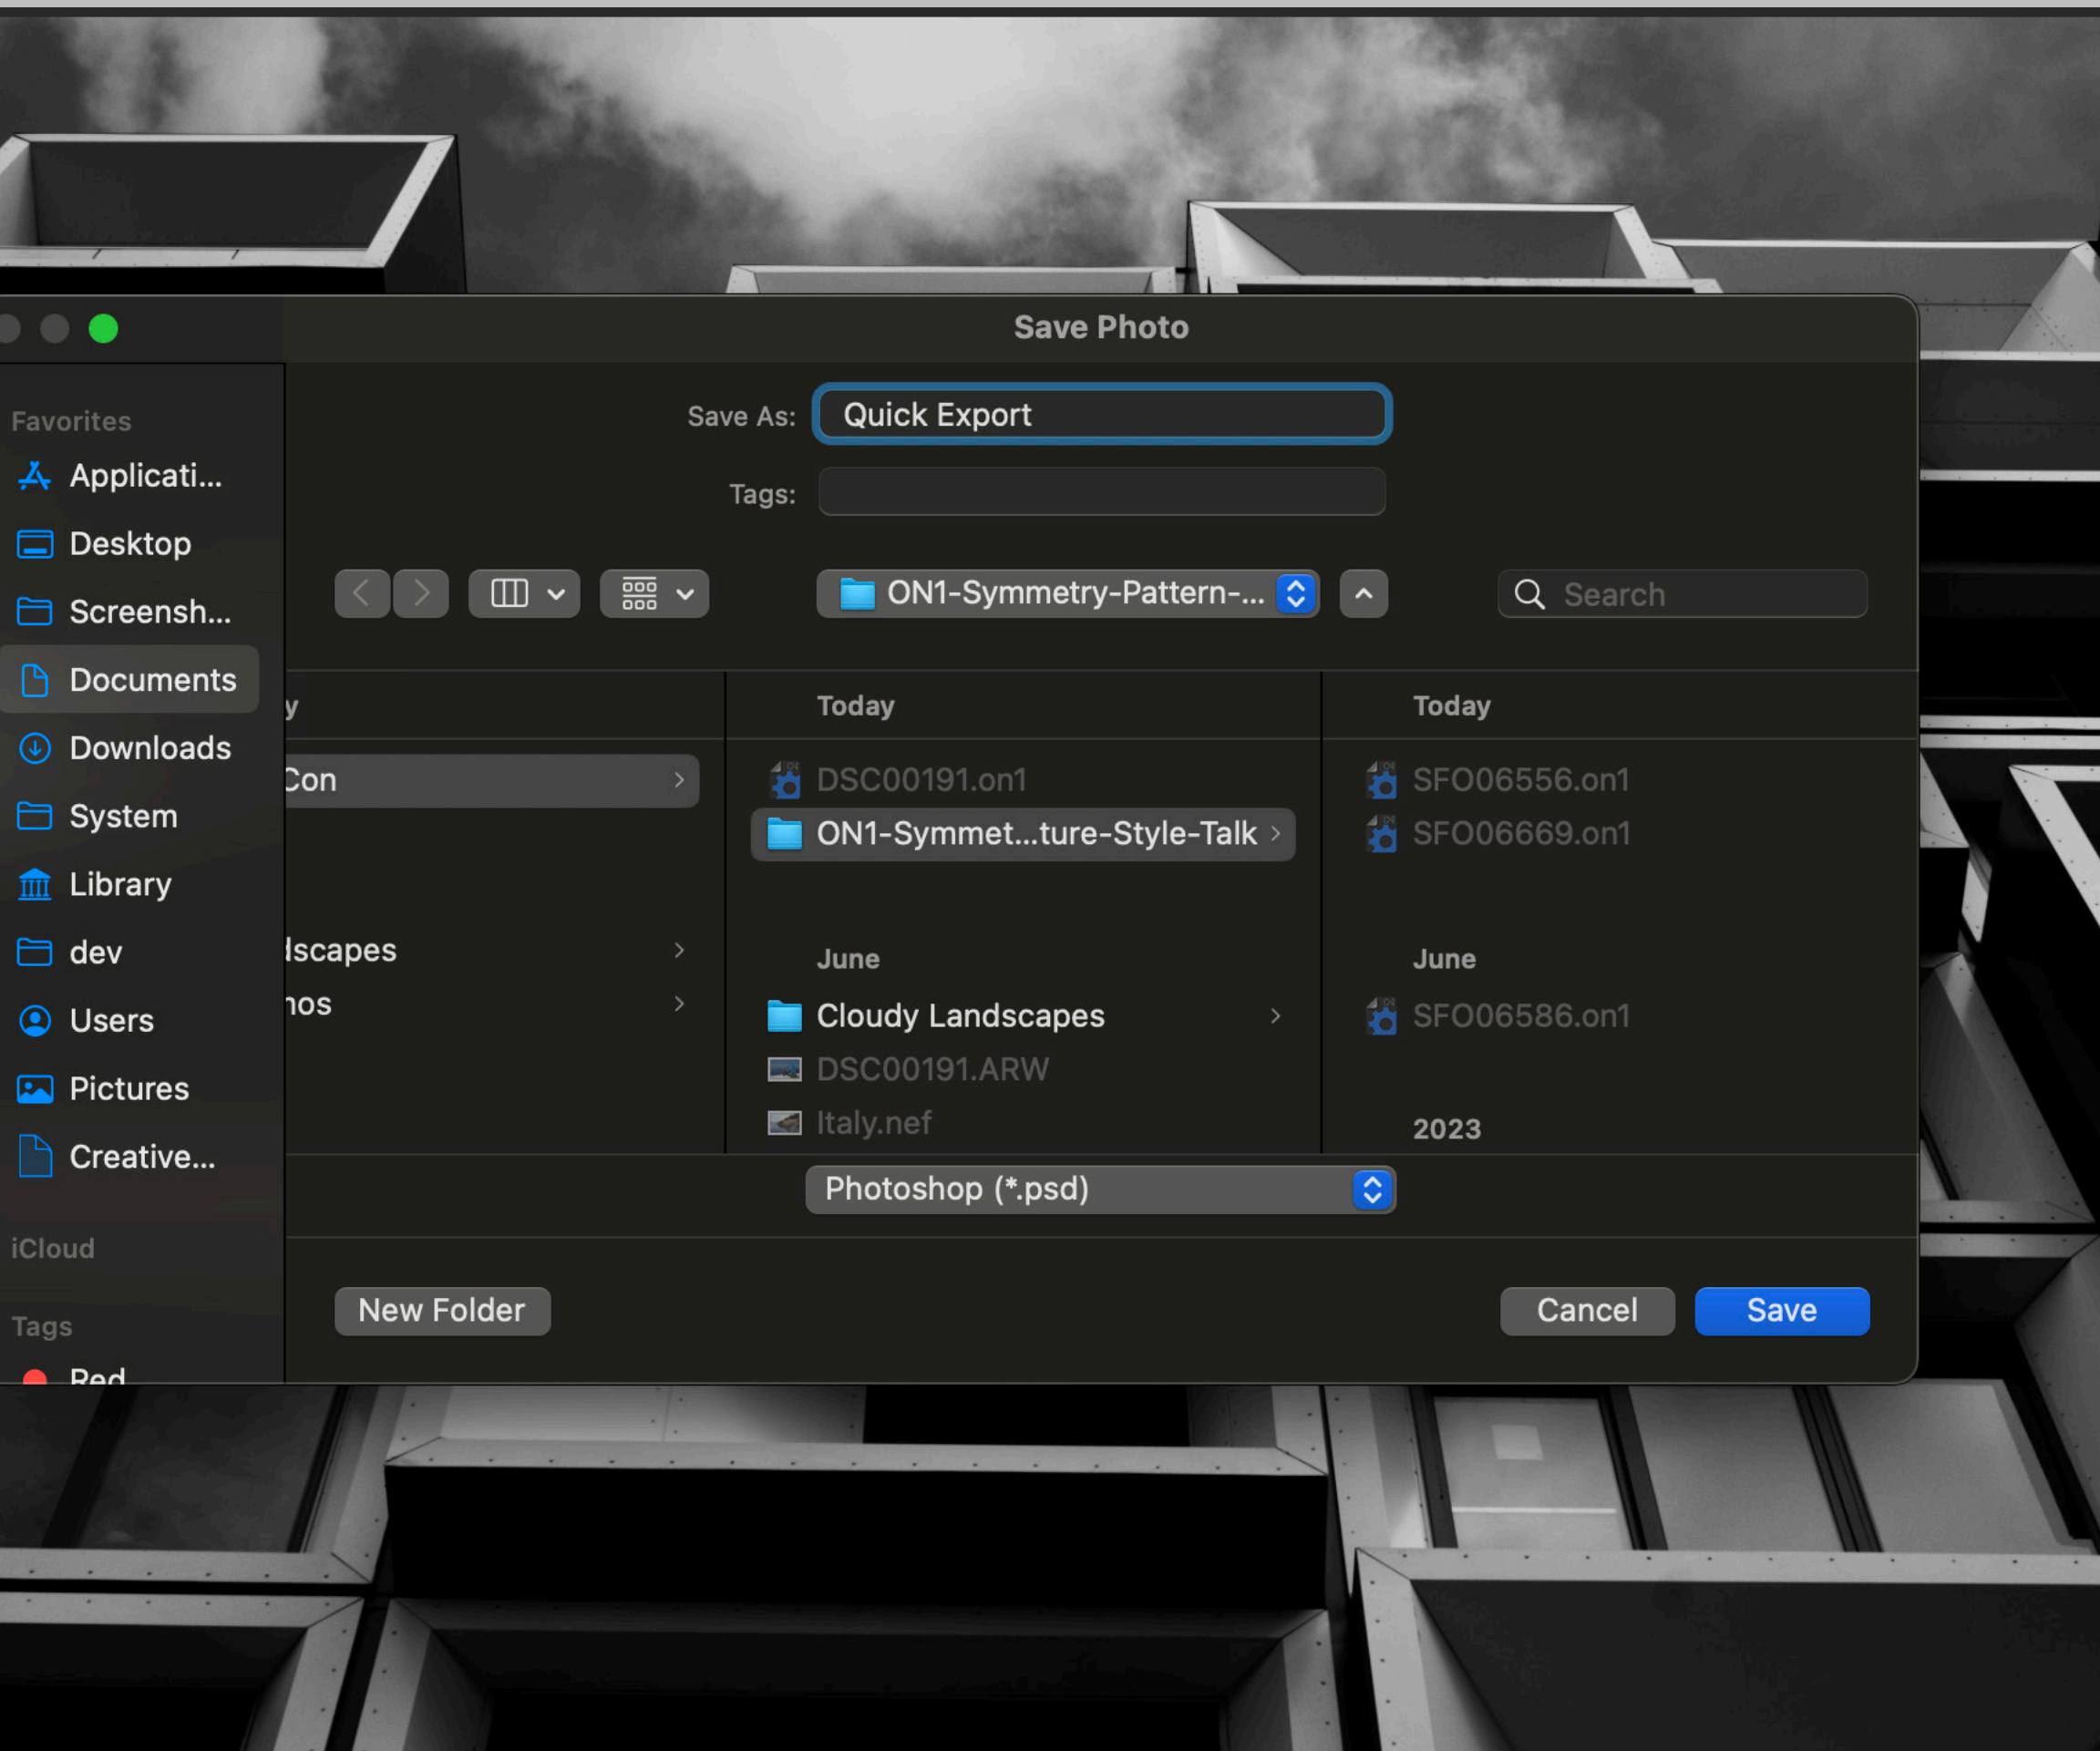

15. Print (Ctrl + P / Cmd + P)

Use: Access the Print dialog instantly.
Workflow Boost: Speeds up the printing process, especially useful when handling multiple photos for clients.
