Pacific Northwest Preset Pack

20 Original Presets for ON1 Photo RAW

Thank you for downloading my Pacific Northwest preset pack for ON1 Photo RAW. I created these presets while processing photos from a photo trip along the Oregon coast. I've used these looks in many of the images you've seen on my website. I think you'll find they are great starting points for your landscape and travel photos.

Feel free to share your next photo using one of these presets with me. I'd enjoy seeing your work.
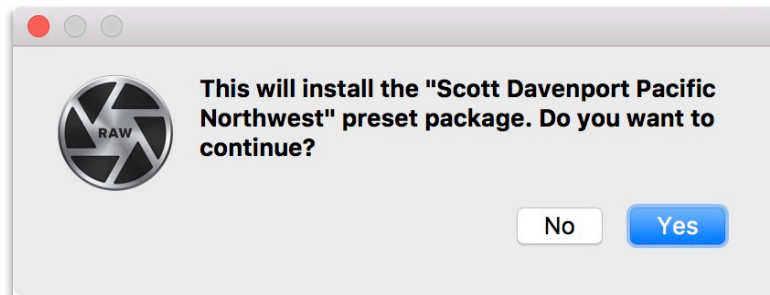

Happy Shooting!

– Scott
